# BUSINESS LEADERS IN THE CLASSROOM

## Making a Difference for Public Education in the State of Arizona

### WHY

#### is it important that I get involved?

- See for yourself the state of public education in Arizona today.
- Walk in the shoes of today's principals and teachers as they strive to improve our education system.
- Test your understanding of the problems facing public education today.
- Help motivate students with your real world success story.

### WHAT will I be doing?

- Experience the successes and challenges of public education in Arizona in a 4 hour visit to a school, with the principal as your guide.
- Meet the teachers and administrators who are educating the workforce of tomorrow.
- Volunteer to share information about your business and work experiences with the students.

### WHEN will I be doing this?

- The date of your visit will be arranged to fit your schedule.
- We will help to create a day that fits both your interests and your work commitments.
- Typically you will start when the children arrive for school, and conclude your visit before noon.

### HOW do I get involved?

*Please let us know as soon as possible if you would like to be one of the select business leaders who will be participating in our 2011-2012 pilot project.*

*As part of the initial group of leaders to have this unique experience, you will also help us shape this program for other business leaders throughout the Valley and the state.*
